

PROTECT BONGIN BONGIN BAY

MONA VALE
BASIN

Who we are

We are a group of locals who are leading a campaign to have Mona Vale's Bongin Bongin Bay (Mona Vale Basin) declared as an aquatic reserve.

Our group is made up of local ocean and pool swimmers, surfers, surf life savers and beach users. Our group has no political affiliation. We are just passionate locals who care about our environment.

Our proposal

With your support, we will be asking Northern Beaches Council to lobby the NSW Government to establish a 'no take' zone at Bongin Bongin Bay (Mona Vale Basin).

The establishment of this aquatic reserve will protect local marine biodiversity now and into the future.

Why?

We use the beach every day throughout the year and believe this unique environment is worthy of protection. We regularly see stingrays, dolphins, blue groppers, sharks, octopus, cuttlefish and many other species in and around Bongin Bongin Bay. Occasionally we have seen turtles, penguins and migrating whales.
